

School Messenger App

The School Messenger App for Android and iOS is an easy way for you to access important information and updates from Wood Intermediate and the Davenport Community Schools. The app is a free download in both the Google Playstore and Apple App Store on our device.

Installing the School Messenger App on an Android device: Go to the Google Playstore and search for “Davenport Community Schools”, from there download and install.

Installing the School Messenger App on Apple iOS device: Go to the App Store and search for “Davenport Community Schools”. You will press “get” to install the app on your device.

The first time you use the app you will be prompted to go through the set up. This is where you are going to select the schools you wish to follow. By following the school you will receive notification when messages are sent out from the school about event changes for the building. You will automatically receive messages from Davenport Community Schools for district wide information.
