

Davenport Community Education

Davenport Community Education provides a mechanism for stakeholder involvement in continuous school improvement through analysis, resource development and celebration of a series of community stakeholder-schools issues. These issues include:

Community Education includes a wide array of community stakeholders including community agencies, concerned citizens, teachers, parents and students. These Community Education Partners impact students and families in the Davenport community through a tiered structure of committees and direct services that provide opportunities for communication, involvement and governance. This process will be guided by an advisory council of representative stakeholders to assure impact and continuous improvement.
