What was the process used to develop the delivery system for eligible individuals?

The delivery system was developed in accordance with the Iowa Administrative Code Rule 41.408 (2)"c". The original District Developed Service Delivery Plan for Special Education (DDSDP) was developed in 2013. The group of individuals who originally developed the system included parents of eligible individuals, special education teachers, general education teachers, administrators and at least one representative of the Mississippi Bend Area Education Association (hereafter referred to as MBAEA, or AEA.)

Overview of steps in completing the Original 2013 Service Delivery Plan

- Step 1: The district school board approves the development of Service Delivery Plan and individuals on development committee
- Step 2: The committee develops the plan
- Step 3: The draft plan is available for public comment
- Step 4: All input is reviewed and considered
- Step 5: Plan is revised accordingly
- Step 6: The AEA Special Education Director verifies plan compliance
- Step 7: The district school board approves the plan prior to adoption

2018-2019 Five Year Review

The District Developed Service Delivery Plan (DDSDP) must be reviewed, revised, readopted, and recertified every five years. The 2018-19 school year is the five-year review of Davenport's DDSDP.

In accordance with the review period, a review of the current plan was shared with parents of eligible individuals, parents of other students, special and general education teachers, district administrators, community members, and MBAEA staff. The overview of steps in completing the five year review:

- Step 1: The draft **September 2018 DDSDP** was available for public comment
 - Special Education Coordinating Council reviewed a copy of the district plan on April 25, 2018
 - The DDSDP was made available for additional public comment on the district website on May 31, 2018 for a period of 10 days
 - A group of parents expressed concerns that they were unaware the plan had been posted for public comment on the district website, so the plan was made available for an additional two weeks
 - A public meeting was held on April 25, 2018
 - A second public meeting was held on August 28, 2018
 - Due to inclement weather reducing the number of attendees at the August 28 meeting, a third meeting was held on September 5, 2018
- Step 2: All input was reviewed and considered
- Step 3: Plan was revised accordingly
- Step 4: The AEA Special Education Director verified plan compliance
- Step 5: The district school board approved the plan prior to adoption
- Step 6: The DDSCDP was submitted to the Iowa Department of Education

The Iowa Department of Education requested the DCSD revise the September 2018 DDSDP. The following steps were taken to revise the September DDSDP.

- Step 1: A draft plan was presented to the Local School Improvement Advisory Committee (LSIAC) on April 16, 2019.
- Step 2: All input was reviewed and considered.
- Step 3: The Plan was posted on the district web page for public comment on April 17th, 2019
- Step 4: The DCSD received the Iowa Department of Education Davenport Community School District Accreditation Report which required additional changes to the plan.
- Step 5 The plan was pulled from the district web page.
- Step 6: All input from the Iowa Department of Education was reviewed and considered
- Step 7: Parent meetings to review and provide feedback held at each building on June 4, 2019.
- Step 8: All input was reviewed and considered
- Step 9: Plan was revised accordingly
- Step 10: The plan was submitted to the Iowa Department of Education for approval

DRAFT

How will services be organized and provided to eligible individuals?

Continuum of Services in Davenport Community Schools:

K-12 Continuum

General Education with consultation. The student is served in the general education classroom without any accommodations or modifications to the curriculum, instruction, testing or grading. The service provider is responsible for consulting with general education teacher and monitoring the student's progress according to the IEP.

General Education with consultation/accommodations. The student is served in the general education classroom with consultation and support from the special education teacher. The general education teacher is responsible for direct instruction, testing, grading and behavioral management as specified in the IEP. The special education teacher support may include assisting the general education teacher with the design and preparation of materials, adaptations and accommodations. The special education teacher is responsible for monitoring the student's progress on IEP goals.

General Education with direct special education support in the general education classroom. The student receives special education support for the general education curriculum in the general education setting. The special education teacher, support service provider, or trained paraprofessional will be in the general education classroom to provide direct instruction, instructional support, or other assistance to the student or a group of students, through models such as collaborative or co-teaching. The special education teacher/service provider is responsible for monitoring the student's progress on IEP goals.

General Education with direct special education support outside the general education classroom. The student receives special education support for the general education curriculum outside the general education setting. When the services cannot be appropriately provided in the general education setting, the student may receive selected services or all services he/she needs in a separate educational setting (including, but not limited to, special classes, special schools, home instruction, and instruction in hospitals and institutions). The special education teacher/service provider is responsible for monitoring the student's progress on IEP goals.

Early Childhood Continuum

Special Class/Early Childhood Special Education Program (ECSE): (More than 50 percent children with disabilities.) ECSE services are defined as direct specially designed instruction provided to an individual student with a disability or a group of students with disabilities by a certified special education teacher to provide instruction which is tied to the general education or preschool curriculum, but has been modified to meet the unique needs of the student(s) in a self-contained setting. This means the student is receiving his or her primary instruction separate from non-disabled peers. Students may receive different services at multiple points along the continuum based on the IEP. The district will provide access to this continuum for all eligible individuals based on their IEP. Services may be provided within the district, or through contractual agreement with other districts and/or agencies. In all cases, the special education teacher is responsible for monitoring student progress on IEP goals.

Regular Early Childhood Program: (Less than 50 percent children with disabilities.) The child is served in the regular early childhood classroom. The teacher is responsible for direct instruction, preparation of materials, adaptations and accommodations as specified in the IEP. A teacher with dual endorsement is responsible for implementing and monitoring the child's progress according to the IEP.

The early childhood special education teacher is responsible for monitoring the implementation of services described in each IEP and monitoring student progress relative to goals in the IEP. When determining a child to be eligible for special education, the IEP team must first consider providing the special education support and related services, and supplementary aids in the setting the child already attends.

Notes:

IEP teams need to consider three issues when determining the appropriate placement for a student: the education program set out in the student's IEP, the options on the continuum in which the student's IEP is to be implemented, and the school or facility selected to implement the student's IEP.

Students may receive different services at multiple points along the continuum based on the IEP.

The district will provide access to this continuum for all eligible individuals based on their IEP. Services may be provided within the district, or through contractual agreement with other districts and/or agencies.

The continuum includes services for eligible individuals ages 3-21

How will caseloads of special education teachers be determined and regularly monitored?

K-12 Services

Caseloads will be tentatively set in the spring of the following year. Caseloads may be modified based on summer registration and actual fall enrollments. Caseloads will be reviewed at least twice during the school year by individual district special education teachers with their building principal and/or special education specialist. In determining teacher caseloads, the Davenport Community School District will use the following values to assign points to the programs of each eligible individual receiving an instructional program in the district. A teacher may be assigned a caseload between 35-45 points. Caseloads are completed by teachers, specialists, or special education department chairs. Parental input is not required for caseload determinations.

Caseload Determination Worksheet

1. How many IEP students are on the roster that you currently serve? (Do not include students currently homebound or on a long-term suspension.) _____ X 1.00
2. Identify each of the students in a category below. (Minutes should be taken from the IEP, Page F. Indicate direct instruction from this teacher only, including specially designed instruction in a co-taught setting.)
 - a. Up to 2 hours per day of direct instruction _____ x 0.50
 - b. Between 2 and 5 hours per day of direct instruction _____ X 0.75
 - c. More than 5 hours per day of direction instruction _____ X 1.00
3. How many students on this roster will have a three-year reevaluation this school year?
_____ X 0.25
4. When working with 3 grade levels = 1.00
5. When working with 4 grade levels = 2.00
6. When working with 5 grade levels = 3.00
7. How many students have a Behavior Intervention Plan? _____ X 1.00
8. How many students are on Iowa Alternate Assessment? _____ X 0.75
9. How many students have **3** or more of the following support services: _____ X 0.25
 - a. Speech
 - b. Occupational Therapy
 - c. Physical Therapy
 - d. Assistive Technology
 - e. Hearing Itinerant
 - f. Vision Itinerant
 - g. Medicaid billable services

TOTAL POINTS _____

**Each teacher is required to turn in their caseload sheets to the principal.

**Total point range for a full caseload is between 35-45 points.

What procedures will a special education teacher use to resolve caseload concerns?

Caseloads will be reviewed at least twice per year by individual LEA special education teachers with their building principal. Notification will be given to special education teachers when caseloads must be determined. In addition to scheduled reviews, caseload will also be reviewed under the following circumstances:

- When a specified caseload is exceeded and if the team has data to support an adverse effect on services of all students, a review may be requested in writing.
- When a teacher has a concern about his or her ability to effectively perform the essential functions of his or her job due to caseload.

Requesting a Caseload Review

- All requests must be in writing
- Requests should initially be given to an individual's principal who will then share with the Director of Special Education.
- The person requesting the review is responsible for gathering relevant information to support their request. This information might include, but is not limited to:
 - IEPs
 - Schedule and instructional groupings
 - Collaborative/co-teaching assignments
 - Number of buildings

Procedural Steps

1. Informal problem solving strategies in relation to caseload concerns have been exhausted.
2. A written request for caseload review is submitted to the principal.
3. The principal attempts to resolve the concern.
4. If the caseload concerns cannot be satisfactorily resolved, the request is then sent to the Director of Special Education/designee.
5. Within 15 working days, the Director of Special Education/designee will review the request and give a recommendation to the individual's principal/supervisor.
6. Upon the receipt of the Director of Special Education/designee recommendation, the principal will review the information and discuss it with the individual.
7. Within 10 working days, the principal will meet with the individual and provide a written determination.
8. If the person who requested the review does not agree with the determination, he or she may appeal to the AEA Director of Special Education.
9. The AEA Director/designee will meet with personnel involved and will provide a written decision.

How will the delivery system for eligible individuals meet the targets identified in the State’s Performance Plan and the LEA determination as assigned by the state? What process will be used to evaluate the effectiveness of the delivery system for eligible individuals?

At least once per year, district administrators and staff will examine their special education district profile to review the district’s data relative to progress indicators outlined in Iowa’s State Performance Plan (SPP) for special education. District administrators will also examine the district’s Annual Progress Report (APR) and results from the Iowa Statewide Assessment of Student Progress (ISASP) each year to review achievement data as it pertains to students with IEPs in the district. These data will be used to determine needs and priorities and to develop an action plan for special education instructional services when necessary.

If the district meets or exceeds APR goals and target goals outlined in our state performance plan for special education, the delivery system will be considered effective, but proactive planning and action steps will still be developed in an effort to continually improve our outcomes. If the district does not meet APR goals or SPP target goals, district staff will work in collaboration with MBAEA staff to develop an action plan designed to promote progress toward these goals

DRAFT

District Developed Special Education Service Delivery Plan Assurances

The district assures it provides a system for delivering instructional services including a full continuum of service and placements to address the needs of eligible individuals aged 3 to 21, and shall provide for the following:

1. The provision of accommodations and modifications to the general education environment and program, including settings and programs in which eligible individuals aged 3 to 5 receive specially designed instruction, including modification and adaptation of curriculum, instructional techniques and strategies and instructional materials.
2. The provision of specially designed instruction and related activities through cooperative efforts of special education teachers and general education teachers in the general education classroom.
3. The provision of specially designed instruction by a special education teacher in the general education classroom or in an environment other than the general education classroom, including consultation with general education teachers.
4. The provision of specially designed instruction to eligible individuals with similar special education instructional needs organized according to the type of curriculum and instruction to be provided, and the severity of the education needs of the eligible individuals served.

The district assures the school board has approved the development of the plan for creating a system for delivering specially designed instructional services.

The district assures that prior to the school board adoption, this delivery system was available for comment by the general public.

The district assures the delivery system plan was developed by a committee that included parents of eligible individuals, special education teachers, general education teachers, administrators, and at least one AEA representative (selected by the AEA Special Education Director).

The district assures the AEA Special Education Director verified the delivery system is in compliance with the Iowa Administrative Rules of Special Education.

The district assures the school board has approved the service delivery plan for implementation.

The district will give parents/families/interested persons time for public comment via our web site: www.davenportschools.org and we will use that public comment to drive further revisions of our plan.
