

EXPLORERS • GRADES 1-4

PUTNAM!

\$20 per program • \$15 for members

All programs run from 9 to 11 a.m.

Rivers and Oceans

Saturday, Nov. 7

Explore the wonderful world of water! From rivers to oceans and the creatures that live there, Explorers will investigate the water cycle and why every drop of water counts.

Fizz, Bubble, Goo

Saturday, Dec. 5

Investigate the science of chemistry and experiment with chemical reactions! Explorers will safely explore the world of a scientist while conducting and observing reactions that fizz, bubble, and goo!

Our Solar System

Saturday, Jan. 9

Explore planets in our Solar System and investigate our Moon! Explorers will experiment with craters and engineer a lunar lander!

Simple Machines

Saturday, Feb. 6

Are simple machines REALLY that simple? Let's try our hand at navigating machines and see if we can engineer a complex machine that will really work.

Dinosaurs and Prehistoric Life

Saturday, March 6

Explore the life and times of the fascinating creatures we call dinosaurs! Find out more about the era they lived in and what we can learn through fossils!

Birds of Prey

Saturday, April 10

Find out more about various species of raptors, along with their eating habits, habitats, and physical features. We'll investigate owl pellets, identify bones, and search for remarkable raptors in the museum!

Code and Create

Saturday, May 1

Create a game or creation using Scratch, a block-based visual programming language, and test your skills at programming the Putnam's friendly bots, Dot and Dash!
