## THE PERRY INITIATIVE

We are excited to share that the University of Iowa is partnering with The Perry Initiative to host a free, one-day, hands-on experience for high school women who are interested in pursuing careers in medicine and engineering. Students will hear from women leaders in these fields and try it for themselves by performing mock orthopaedic surgeries and biomechanics experiments.

We are currently seeking applicants for this program. Participants should be students who gender-identify as female or nonbinary in grades 10 and up with an expressed interest in science, medicine and/or engineering. We would very much appreciate it if you could pass this information along to any high school principals, high school science teachers or high school students you may know. Applicants should fill out our online application in advance of the April 12, 2023 application deadline.

These materials are neither endorsed nor sponsored by the Davenport Community School District, nor does the school district take any position with regards to the materials presented."

Individuals with disabilities are encouraged to attend all University of Iowa-sponsored events. If you are a person with a disability who requires a reasonable accommodation in order to participate in this program, please contact University of Iowa Health Care Department of Orthopedics and Rehabilitation in advance at 319-356-3943.

This program is open to everyone. The University of Iowa prohibits discrimination in employment, educational programs, and activities on the basis of race, creed, color, religion, national origin, age, sex, pregnancy, disability, genetic information, status as a U.S. veteran, service in the U.S. military, sexual orientation, gender identity, associational preferences, or any other classification that deprives the person of consideration as an individual. The University also affirms its commitment to providing equal opportunities and equal access to University facilities. For additional information contact the Office of Equal Opportunity and Diversity at 319-335-0705.
